

Long form Audit Report (LFAR) is Management Report submitted by Bank Auditors at Branch level. Reserve Bank of India had originally introduced system of LFAR submission by auditors way back in 1985, same was subsequently revised twice in 1993 and 2003 and now in 2020. Branches LFAR are consolidated and Bank level LFAR is prepared. For branches that are below cut off level for statutory audit, LFAR is to be prepared by concurrent auditors. LFAR serves as vital tool for auditors and their team members. Auditors have to offer comments/feedback on the Profit & Loss Account, Balance sheet, Advances and all other matters. LFAR has questions for specialised branches such as Forex Branches, Service Branches and Branches having large advances. Normally auditors verify and offer their comments on the details compiled by the branch management.

Normally audit team should go through LFAR well in advance and study the same thoroughly. Before any area is started, questions to be answered in LFAR should be kept in mind. Check List based on questions can be prepared same will help as ready tool for verification of that area by audit team. While replying to the questions LFAR auditor must be clear in his thoughts and to the point. Answer should be descriptive and Yes/NO/Not applicable type of replies should be avoided. General comments/ copy paste of previous should be strictly avoided. All irregularities pointed out should be specific and given with examples. Many time auditors are giving cross references in LFAR/ of LFAR in other report, that needs to be avoided. Main Auditor's Report is self-contained document. Same way matters of Main Statutory Auditor's Report should not be reported in LFAR. Matter concerning subject of qualification and affecting true & fair view should be reported only in Main Auditor's Report. In whole exercise of Bank audit, Documentation plays very important role. Auditors should collect all important documents and create proper working papers. All documents should be persevered as required by SAs.

Following points are to be kept in mind while making audit plan and doing actual verification

Long Form Audit Report (LFAR) to the Management and the Statutory Central Auditors of the bank by the branch auditors in case of bank branches

The following paragraphs list the matters which the branch auditors of the bank are required to comment upon in their Long Form Audit Reports (LFAR). This questionnaire additionally contains questions, which are relevant to the specialized branches dealing in foreign exchange transactions, branches having very large advances, recovery of non-performing assets (NPA) and clearing house operations, if any. Auditors of foreign branches of Indian banks should also furnish this report. In the case of foreign branches, reference to Reserve Bank of India should be construed to include Reserve Bank of India, as well as the relevant regulating authority of the foreign country where the branch is located.

A. Guiding principles on objective, strategy, scope and coverage of LFAR for branch auditors

- i. The overall objective of the branch audit should be to have transaction testing and provide inputs to the Statutory central Auditors on adequacy of implementation of various policy and regulatory requirements, including efficacy of the system and assurance functions (risk management, compliance and internal audit) at branch level.
- ii. The threshold fixed for different purposes for comments in the LFAR will decide that above the threshold, the transaction detailing needs to be seen and commented upon. However, below the threshold, the system and processes should be checked and commented upon.
- iii. Verification of data integrity and data related control systems and processes should be carried out and commented upon, with the special thrust on those data inputs which are to be used for MIS at corporate office level and for supervisory reporting purposes.
- iv. Where any of the comments made by the auditors in their LFAR is adverse, they should consider whether a qualification in their main report is necessary. It should not, however, be assumed that every adverse comment in the LFAR would necessarily result in a qualification in the main report. In deciding whether a qualification in the main report is necessary, the auditors should use their professional judgment in the facts and circumstances of each case.

Conclusion

Plan to update the LFAR simultaneously along with audit. Most of the time audit team fills the LFAR post completion and they find it difficult or they need go back to records to again note details to be reported in LFAR. Auditor's Team should bifurcate the questions based area being audited by each team member. When irregularities are reported, the same should be reported with sufficient details. Once the report is ready same need to be discussed with Branch Head. During the course of audit, where we are not able to verify the documents/we are relying on explanations we should obtain confirmations on such points in Management Representation letter.

Checklist for verification of advances & reporting in LFAR

1. In respect of common irregularities, the Auditors can give their comments borrower-wise in the LFAR in the format given hereunder:
